

Fashion Focus: Cosplay

Cosplay (form the English words “costume” and “play”) is all about fashion and fun. In Japan, teenagers and people in their early twenties dress up as their favorite anime(日式动画), manga (漫画), or video-game character. These days, many cosplayers also dress like

characters from a movie or like their favorite musicians.

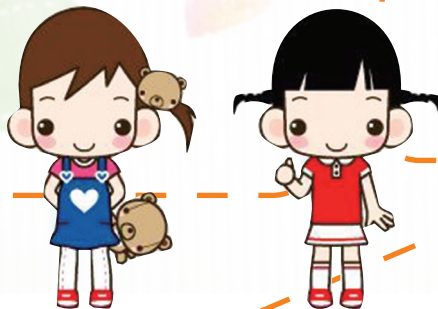

Cosplayers often meet to share their costumes and take photos. Sometimes they gather in certain areas of a city or at special parties. Some also go to anime or manga conventions (大会) dressed as their character.

For many, cosplay is more than a hobby. “I spend a lot of time and money working on my costume,” says cosplayer keiko Yoshida. “All week, I am an ordinary person. But when I put on my costume, I’m different. I am someone interesting and special.”
