Pandas

练习

Pandas are lovely animals. Most of them live in the deep forests of Sichuan Province in China. They have white fur, though their shoulders, legs, ears and eyes are black. Pandas are usually very heavy. Some of them can be about 1.5 meters tall and weigh about 100 kilograms. However, pandas are very agile (敏捷的), they can climb trees as easily as some other animals do.

Pandas have big, sharp teeth and live mainly on bamboo leaves. Every day each grown-up

pandas eats about 15-30 kilograms of bamboo leaves and they usually spend 10-12 hours eating. Pandas also have spare-time hobbies. Two of their hobbies are climbing trees and sleeping.

Sadly, there are not many pandas left in the world because some people keep cutting down trees, and bad hunters are trying to kill them for money. The Chinese government (政府) is doing its best to protect pandas from being harmed or killed.
